# FINANCIAL RESULTS FOR THE YEAR ENDED DECEMBER 31, 2018

(<u>Note</u>: All dollar amounts in this news release are expressed in U.S. dollars except as otherwise noted. The financial results are prepared using the recognition and measurement requirements of International Financial Reporting Standards except as otherwise noted, and are unaudited.)

Fairfax Financial Holdings Limited (TSX: FFH and FFH.U) announces fiscal year 2018 net earnings of \$376.0 million (\$11.65 net earnings per diluted share after payment of preferred share dividends) compared to fiscal year 2017 net earnings of \$1,740.6 million (\$64.98 net earnings per diluted share after payment of preferred share dividends), reflecting the \$1,018.6 million non-recurring gain on the sale of First Capital recognized in fiscal year 2017 and lower net gains on investments, partially offset by higher underwriting profit and higher interest and dividends. Book value per basic share at December 31, 2018 was \$432.46 compared to \$449.55 at December 31, 2017 (a decrease of 1.5% adjusted for the \$10 per common share dividend paid in the first quarter of 2018).

"Despite the catastrophe activity in 2018, our insurance companies continued to have excellent underwriting performance with a consolidated 2018 combined ratio of 97.3%, with Zenith National at 82.6%, Odyssey Group at 93.4%, Northbridge at 95.8%, Allied World at 98.1% and Crum and Forster at 98.3%, and our operating income was very strong at \$956 million, but our net gains on investments were affected by net investment losses in the fourth quarter of \$664 million which arose primarily as a result of marking the investments we hold to market. We continue to be soundly financed, with year-end cash and marketable securities in the holding company exceeding \$1.5 billion and no holding company debt maturities until 2021," said Prem Watsa, Chairman and Chief Executive Officer.

The table below shows the sources of the company's net earnings, set out in a format which the company has consistently used as it believes it assists in understanding Fairfax:

Highlights for 2018 (with comparisons to 2017 except as otherwise noted) include the following:

• The combined ratio of the insurance and reinsurance operations was 97.3% on a consolidated basis, producing an underwriting profit of \$318.3 million, compared to a combined ratio of 106.6% and an underwriting loss of \$641.5 million in 2017, primarily reflecting lower current period catastrophe losses and higher net favourable prior year reserve development.

- Net premiums written by the insurance and reinsurance operations increased by 20.5% to \$12,017.5 million (8.7% excluding the acquisitions of Allied World and of AIG branches in Latin America and Central and Eastern Europe, the sale of First Capital and other one-off transactions, all of which occurred during 2017 and 2018).
- The insurance and reinsurance operations produced operating income of \$956.1 million, compared to an operating loss of \$215.7 million in 2017, reflecting higher underwriting profit, primarily due to lower current period catastrophe losses and higher net favourable prior year reserve development, and higher interest income.
- Interest and dividends of \$783.5 million increased from \$559.0 million in 2017, primarily reflecting higher interest earned on increased holdings of short-dated U.S. treasury bonds and high quality corporate bonds, partially offset by lower interest earned on U.S. state and municipal bonds as a result of sales during 2017 and 2018.
- The operating income produced by the non-insurance operations of \$380.3 million increased from \$212.1 million in 2017, primarily reflecting the the non-recurrence of a performance fee payable to Fairfax by Fairfax India in 2017 and higher share of profit of associates.
- Interest expense of \$347.1 million is comprised of \$253.0 million incurred on borrowings by the holding company and the insurance and reinsurance companies and \$94.1 million incurred on borrowings by the non-insurance companies which are non-recourse to the holding company.
- Corporate overhead and other expense of \$182.2 million is comprised of net corporate overhead of \$14.0 million, amortization of subsidiary holding companies' intangible assets of \$109.3 million and the loss on repurchase of long term debt of \$58.9 million. Corporate overhead and other expense increased by \$238.7 million from 2017, primarily due to corporate overhead having a lower share of profit of associates at the holding company and the non-recurrence of a performance fee payable to Fairfax by Fairfax India in 2017, partially offset by a lawsuit settlement gain of \$20.0 million.
- As at December 31, 2018, subsidiary cash and short term investments decreased to 18.1% of the company's portfolio investments from 47.5% at December 31, 2017, reflecting purchases of short-dated U.S. treasury bonds and high quality corporate bonds. Short-dated U.S. treasury bonds and high quality corporate bonds represented 34.7% of the company's portfolio investments at December 31, 2018.
- Net investment gains of \$252.9 million in 2018 consisted of the following:

	Fou	Fourth quarter of 2018				
		(\$ millions)

Other	(9.2)	(93.2)	(102.4)		
	1,174.9	(922.0)	252.9		

- Net losses on Other for the year ended December 31, 2018 in the table above was principally due to foreign exchange losses of \$131.8 million on investments denominated primarily in the euro and Indian rupee which weakened against the U.S. dollar.
- On October 31, 2018 Arbor Memorial repurchased the company's 43.4% equity interest for consideration of \$179.2 million (Cdn \$235.4 million), comprised of cash and newly issued preferred shares. The company recorded a pre-tax gain of \$111.8 million upon sale.
- On October 19, 2018 Fairfax India invested \$88.5 million (6.5 billion Indian rupees) in Catholic Syrian Bank Limited ("CS Bank"), consisting of cash consideration of \$60.2 million (4.4 billion Indian rupees) and consideration payable of \$28.3 million (2.1 billion Indian rupees). At December 31, 2018, Fairfax India held a 36.4% equity interest in CS Bank on a fully diluted basis, inclusive of purchased warrants that are considered to be in-substance equity. Fairfax India has committed to further invest approximately \$80 million (5.6 billion Indian rupees) to obtain the rights to additional warrants in CS Bank within 18 months of the initial closing date. Once completed, Fairfax India will have an approximate 51% equity interest in CS Bank on a fully diluted basis. CS Bank, established in 1920, is a private company headquartered in Thrissur, India, offering banking services through 421 branches and 264 automated teller machines across India.
- Effective October 1, 2018 a portfolio of business comprised of direct UK employers' liability and public liability policies written by a UK insurer relating to accident years 2001 and prior was transferred to RiverStone (UK) through a Part VII transfer under the Financial Services and Markets Act 2000, as amended. Also effective October 1, 2018 certain latent claims related to policies issued by the same UK insurer relating to accident years 2002 through 2014 were reinsured by RiverStone (UK). The combination of these two transactions resulted in RiverStone (UK) assuming \$566.8 million of net insurance contract liabilities in exchange for cash consideration of \$670.5 million.
- Subsequent to December 31, 2018:
  - On February 7, 2019 the company completed an offering of \$85.0 million principal amount of 4.142% unsecured senior notes due February 7, 2024. Mitsui Sumitomo Insurance Co., Ltd. was the sole purchaser of the senior notes. The company intends to use the net proceeds of the offering to support new subsidiary business.
  - On January 15, 2019 the company invested an additional \$250.0 million in debentures and warrants of Seaspan Corporation ("Seaspan"). The warrants were immediately exercised for an additional \$250.0 million to acquire 38.5 million Seaspan Class A common shares. Upon completion of these transactions, the company's actual and potential voting interests in Seaspan were 35.8% and 42.5%, respectively, and the company's cumulative cash investment in Seaspan totaled \$1 billion.

- On December 4, 2018, AGT Food & Ingredients Inc. ("AGT") announced the execution of a definitive agreement for a management led take-private transaction pursuant to which a buying group, which included the company, would acquire all of the issued and outstanding common shares of AGT not already held by the buying group, at a price of Cdn\$18.00 per common share. The company has provided a binding commitment letter to, among other things, provide the purchaser entity with the funds necessary to acquire all of the outstanding common shares of AGT (other than common shares held by the buying group), subject to the terms and conditions therein. On February 5, 2019 the shareholders of AGT approved the take-private transaction. Closing of the transaction is subject to receipt of certain regulatory approvals and is expected to occur in the first half of 2019. AGT is one the world's largest suppliers of pulses, staple foods and food ingredients and is listed on the Toronto Stock Exchange.
- The company held \$1,557.2 million of cash, short term investments and marketable securities at the holding company level (\$1,550.6 million net of short sale and derivative obligations) at December 31, 2018, compared to \$2,368.4 million (\$2,356.9 million net of short sale and derivative obligations) at December 31, 2017.
- The company's total debt to total capital ratio increased from 25.8% at December 31, 2017 to 27.2% at December 31, 2018, primarily reflecting decreased total capital.
- During the fourth quarter of 2018 the company repurchased for cancellation and repurchased for treasury a total of 150,073 subordinate voting shares at an aggregate cost of \$20.4 million. During the fourth quarter of 2017 and up to December 31, 2018, the company repurchased for cancellation and repurchased for treasury a total of 806,136 subordinate voting shares at an aggregate cost of \$413.5 million.
- At December 31, 2018, common shareholders' equity was \$11,779.3 million, or \$432.46 per basic share, compared to \$12,475.6 million, or \$449.55 per basic share, at December 31, 2017. The decrease in common shareholders' equity per basic share was primarily due to unrealized foreign currency translation losses on foreign operations resulting from strengthening of the U.S. dollar relative to the Indian rupee, Canadian dollar and British pound sterling during 2018.

There were 27.3 million and 27.8 million weighted average common shares effectively outstanding during the fourth quarters of 2018 and 2017 respectively. At December 31, 2018 there were 27,237,947 common shares effectively outstanding.

Unaudited consolidated balance sheet, earnings and comprehensive income information, along with segmented premium, combined ratio, prior year reserve development and catastrophe loss information, follow and form part of this news release.

In presenting the company's results in this news release, management has included operating income (loss), combined ratio and book value per basic share measures. Operating income (loss) is used in the company's segment reporting. The combined ratio is calculated by the company as the sum of claims losses, loss adjustment expenses, commissions, premium acquisition costs and other underwriting expenses, expressed as a percentage of net premiums earned. Book value per basic share is calculated by the company as common shareholders' equity divided by the number of common shares outstanding.

As previously announced, Fairfax will hold a conference call to discuss its 2018 year-end results at 8:30 a.m. Eastern time on Friday, February 15, 2019. The call, consisting of a presentation by the company followed by a question period, may be accessed at 1 (800) 369-2013 (Canada or U.S.) or 1 (517) 308-9087 (International) with the passcode "Fairfax".
